

A POWERFUL PARTNER

## How to Digitize Your Diagnostics

[diagnostiknet-bb.de/imdb](http://diagnostiknet-bb.de/imdb)

# TECHNOMARKER

## We Digitize Diagnostics – Be Part of It!

Become part of our network of partners from diagnostics and IT to open up new fields with new innovative digital solutions.

### Topics are:

- Linking classical, in vitro measured biomarkers with digital markers (voice, etc.)
- The development of POCT linked with digital tools for optimized measurements/data evaluation
- The development of digital structures for the communication of diagnostic systems with end users (apps, wearables, etc.)

### We offer support in the:

- Search for suitable fields of application
- Acquisition of suitable partners for your project idea
- Application for funding within the network.

### We are looking forward to more partners:

- SMEs from diagnostics and IT
  - Research institutions
  - Clinics and laboratories
- with an interest in cross-sector collaborations and the development of innovative products and services.
